CivicTRACK

Rethink constituent management

CivicTrack is a top-rated CRM software designed to meet the needs of elected officials and their offices. Our system is web-based so you can access your constituent information and ongoing casework from anywhere.

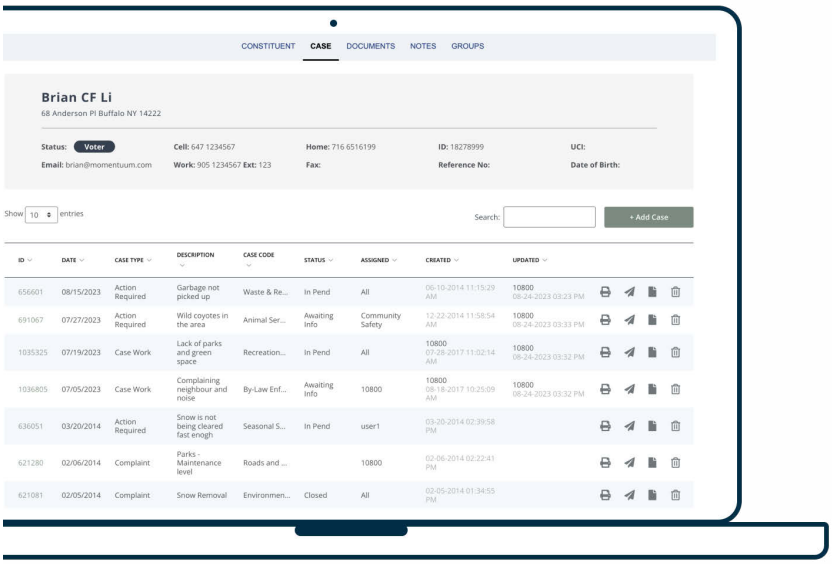

Constituent Profiles & Communications

When a person sends a request to your office, you can instantly access their contact information and review all of their previous interactions with your office at a glance. Emails, webforms, scanned mail, phone calls - see it all in one convenient place.

Outreach Tools & Tagging

Keep your message tailored and impactful. Use tags and filters to categorize your constituents the way you want based on demographic data, activities, interests, issues and more, creating precise target lists that ensure your messages resonate.

Constituent Services & Casework

Resolve and respond quickly and efficiently to inquiries and issues from your constituents. Track every message related to a constituent's case on one screen. Record detailed case notes, attach important documents, and update cases from any device.

Reporting & Analytics

Tracking issues and correspondence helps you focus on those areas that really matter to your constituents. Rely on hard data, not just instincts, to guide your activities and decisions.

Everything you need — in one platform

CivicTrack saves you hours of time each week by combining multiple tools into a single platform.

Web-based access

Available everywhere you go - on your computer, tablet, and smartphone, with no need to download anything.

Bank-grade security

2048-bit encryption whether the data is in transit or at rest. Database backups are performed daily.

Security settings

Permission-based access for each user and a high degree of customization to meet your specific needs.

Case Reports

Generate detailed reports on constituent inquiries for better analysis and planning.

Government casework

Keep track of constituent inquiries. Record and complete cases. Organize deadlines and follow-ups.

Constituent management

Database searchable by a constituent. Create detailed resident profiles. Record comprehensive notes of all interactions.

Engagement tools & Newsletter

Use tags and filters to categorize your constituents and reach out to them about the topics they care about most.

File management

Attach relevant files to constituent records and efficiently manage your documentation using custom folders, an integrated document editor, and file version tracking.

Switching to CivicTrack is easy

As a CivicTrack client, you'll receive dedicated resources to ensure the successful implementation and execution of the CivicTrack CRM Software.

- Unlimited case records
- Unlimited staffers
- Unlimited contacts
- Unlimited storage
- Data migration
